

## Poona

Pile Material:  
100% handspun Coir yarns

Backing:  
Vinyl, approx. 4mm

Thickness:  
18mm (5/8")

Rolls 6'7 wide

The wear, tear and maximum absorption of dirt makes this product suitable for use in entrance hallways, corridors and other 'down-trodden' areas. Shedding is common with the product due to the natural characteristics of coir. Over time and use (along with frequent vacuuming or sweeping) this will decrease to a certain extent. Shedding is not considered a manufacturing defect.

To considerably extend the life of the Poona mate, we recommend that you remove mats, turn upside, shake or beat dirt and embedded sand along with vacuuming frequently.
